

Bufotalin retrosynthesis structure route

Validated source-detail literature baseline: bufotalin -> 33 -> 32 -> 31 -> 30 -> 22 -> 14 -> 20 -> 19 -> 28 -> 27 -> 26 -> 23 -> 25 -> 24 -> 11

Policy: literature path is a high-weight baseline, not a mandatory replacement. ChemEnzy exploration is retained, but raw_solved must pass deterministic verifier and stock closure.
